Notice of Motions

9. Notice of Motion submitted by Councillor M. Ryan

I will move at the next Meeting of the Cappamore-Kilmallock Municipal District that Limerick City & County Council would roll out the use of CCTV cameras, or any other initiatives in the Cappamore-Kilmallock Municipal District, to work on combating the blight on our District of the illegal dumping of roadside rubbish.

The Notice of Motion was proposed by Cllr M. Ryan, seconded by Cllr Carey, and agreed.

REPLY:

In 2024, the Local Government Management Agency (LGMA) published a Code of Practice for Local Authorities for the use of CCTV in Litter and Waste Enforcement under the Circular Economy Act 2022. It allows local authorities to install CCTV and process the data for enforcement, where it is proportionate to do so. The Code sets out a detailed

process, which must be followed in order to install CCTV schemes lawfully for this purpose. It includes;

- The preparation of a Business Case that demonstrates the necessity and proportionality of each scheme and includes evidence of a specific operational problem, e.g. inspections, enforcements, fines, clean-up costs;
- The preparation of Data Protection Impact Assessment (DPIA) for each scheme;
- The presentation of the DPIA to the LCCC CCTV Oversight Board for consideration;
- Director General approval for each scheme.

CCTV can only be deployed for specific operational tasks in designated locations and not used for general patrol/surveillance. i.e., CCTV Schemes are not to be used to routinely monitor the movements of members of the public.

To date three schemes have been approved: Bring Banks (six sites), Litter Black Spots (3 sites), Dual Purpose Cameras (Regeneration 12 sites). A further three Bring Banks have been recommended with more Dual Purpose cameras also in process.

Where there are specific sites in the Cappamore – Kilmallock Municipal District where there is evidence of a persistent problem and that the installation of CCTV would be considered proportionate, a business case can be drafted and brought to the CCTV Oversight Committee. Proposals for CCTV should be sent to the Domestic Waste and Litter team through a Dynamics case for investigation.

10. Notice of Motion submitted by Cllr Stokes

I will move at the next Meeting of the Cappamore-Kilmallock Municipal District that consideration be given to the implementation of traffic calming measures at R513 Kilfrush Co. Limerick located near the entrance/exit along the stretch of road in front of Hospital Tennis Club.

The Notice of Motion was proposed by Cllr Stokes, seconded by Cllr Conway, and agreed.

REPLY:

This area is located within an existing speed limit and traffic calming measures, in the form of a driver feedback sign, are currently in place. The Roads Engineer will measure the current speed of traffic and determine if additional measures are warranted. In the interim, the Roads Engineer will also liaise with An Garda Síochána, requesting that increased enforcement of the existing speed limit is carried out.

11. Notice of Motion submitted by Cllr Conway

I will move at the next Meeting of the Cappamore-Kilmallock Municipal District that a traffic management survey be carried out on Sarsfield Street, Kilmallock with a view to placing a pedestrian crossing near Friars Gate.

The Notice of Motion was proposed by Cllr Conway, seconded by Cllr Carey, and agreed.

REPLY:

The Roads Engineer will review the existing traffic management arrangements on Sarsfield Street. Any proposal for the development of a new pedestrian crossing will have to be assessed based on need, the impact on road capacity and consideration that there are currently four pedestrian crossings over a distance of 900m on the R512 in Kilmallock.
